

Rulefinder Modules Explained

We have provided the following to explain our different modules so that you can decide which one(s) work best for you. This explanation and our "Rulefinder at a Glance" feature will provide you with a complete introduction to Rulefinder. We also offer 5 day [Free Trials](#).

Visit our home page www.rulefinder.net and please feel free to contact us if you have any questions.

Power and Sailboats 2,5 - 6 [m] (8,2 - 19,7 ft)

This module is intended for boat manufacturers that build all kinds of boats between 2,5 and 6 meters. It contains the Recreational Craft Directives linked to the standards applicable for manufacturing. Also support documents are available. Examples: engine-powered boats, sailboats, rowing boats etc. Standards for Inflatable and rigid inflatable boats are not included in this module.

Sign-up fee: 500 EURO
Annual fee: 125 EURO

Sailboats

This module is intended for boat manufacturers that only build sailboats. It contains the Recreational Craft Directives linked to the standards applicable for manufacturing. Also several support documents are available. Standards are included for all sailboats from 2,5 up to 24 meters. Standards for Inflatable and rigid inflatable boats are not included in this module.

Sign-up fee: 800 EURO
Annual fee: 200 EURO

Powerboats

This module is intended for boat manufacturers that only build powerboats. It contains the Recreational Craft Directives linked to the standards applicable for manufacturing. Also several support documents are available. Standards are included for all powerboats from 2,5 up to 24 meters. Standards for Inflatable and rigid inflatable boats are not included in this module.

Sign-up fee: 800 EURO
Annual fee: 200 EURO

Inflatables and Rigid inflatables

This module is intended for boat manufacturers that only build inflatable boats and/or rigid inflatable boats. It contains the Recreational Craft Directives linked to the standards applicable for manufacturing. Also several support documents are available. **Standards are included for all inflatables up to 8 meters.**

Sign-up fee: 500 EURO
Annual fee: 125 EURO

Personal Watercraft

This module is intended for personal watercraft manufacturers. It contains the Recreational Craft Directives linked to the standards applicable for manufacturing. Also several support documents are available.

Sign-up fee: 400 EURO
Annual fee: 100 EURO

Components

This module is intended for manufacturers or distributors of various components used in the CE compliant boats. It contains the Recreational Craft Directives linked to the standards for bilgepumps, electric fans, ignition protection, fuel hoses, steering gear, windows/hatches etc.

Sign-up fee: 400 EURO
Annual fee: 100 EURO

Fuel / holding tanks

This module is intended for manufacturers of fuel and holding tanks for use in CE compliant boats. It contains the Recreational Craft Directives linked to the standards for fuel tanks and holding tanks.

Sign-up fee: 100 EURO
Annual fee: 40 EURO

Windows/hatches/portlights

This module is intended for manufacturers of fuel and holding tanks for use in CE compliant boats. It contains the Recreational Craft Directives linked to the standards for fuel tanks and holding tanks.

Sign-up fee: 75 EURO
Annual fee: 30 EURO

Steering systems

This module is intended for manufacturers of steering systems for use in CE compliant boats. It contains the Recreational Craft Directives linked to the standards for steering systems

Sign-up fee: 200 EURO
Annual fee: 80 EURO

Engines

This module is intended for manufacturers of engines for use in CE compliant boats. It contains the Recreational Craft Directives linked to the standards relevant for testing of engines and power declaration.

Sign-up fee: 850 EURO
Annual fee: 220 EURO

Yacht designers

This module is intended for yacht designers. It contains the Recreational Craft Directives linked to the relevant standards necessary for the design of boats. E.g. stability, structure, tank requirements, man overboard prevention etc.

Sign-up fee: 550 EURO
Annual fee: 140 EURO

Systems

This module is intended for system engineers, boat repair yards, surveyors etc. It contains the Recreational Craft Directives linked to the relevant standards necessary for systems installation on CE compliant boats. E.g. electrical systems, fuel systems, waste water systems, fire protection, LPG systems, bilge systems etc.

Sign-up fee: 250 EURO
Annual fee: 100 EURO

Full version

This module contains the Recreational Craft Directives linked to all harmonised standards under the Recreational Craft Directives 94/25/EC and 2003/44/EC.

Sign-up fee: 1100 EURO
Annual fee: 275 EURO
